## **Stand Against the Attacks on All Working Families!!**

Even though tens of thousands of workers are out of jobs, Indiana Legislators just slashed unemployment benefits by 25 percent.

These anti-worker politicians have other proposals that will lower wages, decimate public education, hang teachers out to dry by weakening or eliminating their right for fair treatment and due process on the job.

Make no mistake; this is a historic attack on all working people, including our **TEACHERS, FIRE-FIGHTERS** and **POLICE** men and women who protect us! It affects all citizens and small businesses of Indiana!

Everyone is affected, whether they belong to a union or not, since Unions set area standards of wages, benefits and working conditions. Without collective bargaining rights, the livelihoods of all workers are driven downward.

We support our political representatives who have stood up for us against this anti-working family agenda.

We need to repel these attacks against the people who make the states work! **Now is the time to join the fight for quality public education, good paying jobs, and advanced manufacturing.**
